Osborne Lagoon: The Osborne Lagoon Bid Specifications are completed and will be submitted to USDA-RUS. Ed has included a copy of his review letter in the board Packets. Since ARRO originally designed the Lagoon, Ed has had to go back to them to obtain some of the documents necessary to respond to Mr. William's questions. Ed spoke with David Schlott at ARRO on Friday, June 10, 2011 and he was forwarding the necessary documents to Ed. Once they are received, Ed will take them to

Act 537 Plan: On June 1, 2011, the Act 537 Plan went on display for Public Comment. To this point, we have received only one comment which came from Mr. Frank Lobb. Since that comment was addressed to both OASA and Kathy Gray, and since it pertained to a number of legal issues, Kathy has prepared a draft response. Ed has included his original letter and Kathy's draft response. Since the official Public Comment Period will not expire until Jun 30, 2011, Ed will hold the response until we are ready to send all of the responses to all of the public comments received. At this point, we are still on schedule to meet the proposed submittal date to DEP.

Lincoln/Brick Street Spray Field Analysis: Nothing to report at this time.

New Treatment Plant: Nothing to report at this time.

Funding Assistance: Ed has included in the Board Packet, communication that has transpired between Kathy Gray, Fulton Bank and USDA-RUS. Based upon discussions and agreement between Kathy Gray and the solicitors for our member municipalities, it was agreed that each municipality should adopt an Ordinance approving the municipal guarantee agreements as opposed to Resolutions. This is the more proper way for the municipalities to approve such an agreement and due to the procedures that must be followed by a municipality to adopt an Ordinance, it would cause closing on the Fulton Loan to beyond June 30. Fulton has agreed to extend the closing date to August 1 in order for the municipalities to have the proper amount of time to adopt the Ordinances. Hopefully this will transpire by mid-July and closing can be before July 30.

Sewer Line Extension Requests: Ed has included in the Board Packets, a summary of the Facilities Expansion Committee Meeting from June 1, 2011. At that meeting, the Committee discussed alternatives for providing sewer extensions along Baltimore Pike. Ed has placed this item on the Board Agenda for discussion.
