

# OXFORD AREA SEWER AUTHORITY

Position Title: Wastewater Treatment Plant Operator

FLSA Status: Non-exempt

Pay Grade: Hourly

Location: Plant

Reports to: Chief Operator

---

## ESSENTIAL DUTIES AND RESPONSIBILITIES:

1. Operates sewage treatment, sludge processing, and disposal equipment in wastewater treatment plant to control flow and processing of sewage. Monitors control panels and adjusts valves and gates manually or by remote control to regulate flow of sewage.
2. Observes variations in operating conditions and interprets meter and gauge readings and tests results to determine load requirements.
3. Starts and stops pumps, engines, and generators to control flow of raw sewage through filtering, settling, aeration, and sludge digestion processes.
4. Maintains log of operations and records meter and gauge readings.
5. Collect sewage samples and conduct laboratory tests.
6. Perform all aspects of sampling, monitoring and testing required to maintain compliance with Federal State and Local regulations governing the wastewater treatment process.
7. Assist with the installation and inspection of sewer lines and services.
8. Perform the installation, maintenance and repair of the physical plant and pump stations and all of their components.
9. Assist in the performance of regular and unscheduled maintenance and repairs on all plant equipment and machinery.
10. On call to respond to emergencies and breakdowns at the plant and pump stations.
11. Conduct the necessary weekend checks of the treatment plant on a rotating basis.
12. Respond to complaints from public; explain services provided by OASA, report non-routine problems to Chief Operator.
13. Perform any other job duties that may be necessary and not included on this list.
